EU Declaration of Conformity

EU Directive 2011/65/EU (RoHS II Directive)

According to EU Directive 2011/65/EU of June 8th 2011, the use of several substances for electrical and electronic equipment in defined categories is restricted.

The defined substances are:

- Lead
- Mercury
- Cadmium
- Hexavalent Chromium
- Polybrominated Biphenyls (PBB)
- Polybrominated Diphenyl Ethers (PBDE)

RCN s.r.l. hereby declares, that the product range

Cable glands, fittings and accessories

Is produced in full compliance with the Directive 2011/65/EU "Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment" (RoHS).

The limit of the lead is indicated in Directive 2011/65/EU in the amount of 0.1%.

As for copper alloys, however, the lead limit is defined by Directive 2011/65 / EU (Article 4 - §6 and related Annex III 6c), and is equal to the amount of 4%.

Borgosesia, September 19th 2018
