

How to order **S SERIES**
& complete the **CODE:**
see table page 56

Industrial Cable glands for unarmoured and wire armoured or braided, tape armoured, lead sheathed cables.

"S series" cable glands offer a wide variety of products, suitable to meet all customer needs.

The cable glands are available in a standard version or with a male or female threaded backnut, the trumpet backnut perfect for mobile poses in which potential damages must be limited caused by repeated bending of the outgoing cable of the cable gland. Suitable versions for cables coated with lead sheathing are also available.

The material of the cable glands may be natural brass or nickel-plated brass, stainless steel AISI 316L and aluminium.

The interior washer may be EPDM or silicone; to be selected according to the operating ambient temperature, like the seal are available in nylon, silicone or PTFE or O-Rings available in EPDM or silicone.

The wide variety of available threads allows the user to choose the most suitable for their needs; this will limit the use of threaded adaptors to reduce the overall dimensions and application costs."
